

Gentlemen,

Please do not expand the Low Power FM (LPFM) stations in any way that would allow them to take priority over current FM translator stations. Our family listens exclusively to the K-LOVE (88.7 FM) radio station in Midland, TX. This station is an uplifting, wholesome station that we feel safe with as parents. Our child can listen without us ever having to worry about what she hears. K-LOVE is very popular in our area and serves to guide the Midland/Odessa listeners in a positive and safe way 24 hours a day. It would be a shame if this wholesome, Christian station were no longer allowed to air in our area. Not only adults but children would suffer its loss. In today's world there are so few forms of the media that stand for strong morals, upright goals, and that are there for anyone 24 hours a day. K-LOVE does this for us and our community. We listen to this station whenever in our vehicle, at work, and at home. It is an extremely positive Christian influence. Please allow it to remain unchanged on our airwaves.

Thank you,

Ardis & Jean Hayslip
